

Anabadi C (Annie)

March 10, 1987 to July 30, 2018

Annie came to Dreamchaser at the age of 18, when the ranch that used her as a broodmare 'couldn't take care of her any more'. She was a full blooded, papered Arabian and could no longer be bred. Since we had Annie's daughter and grandson, they knew we would take her to prevent her going to auction.

Annie lived most of her life in an outside stall, never free to run, never with other horses, just carrying and delivering very expensive foals. When she moved to Dreamchaser, her life dramatically changed for the better. She became close to Cricket and was out in a big turnout with other horses.

Dreamchaser moved to Missouri at the end of 2015, and all the horses experienced grass for the first time. We are thankful that Annie had a great life with us.
