FALL NEWSLETTER SEPTEMBER-NOVEMBER

## Hay Shortage

This year here in Southern Missouri we have experienced somewhat of a drought. The local farmers have not been able to produce as much hay as in a typical year. This year it is already being projected that the price of hay will be increasing substantially.

We need your help to cover the cost to feed these wonderful horses.

Even now, without much rain the last few months, our fields are drying up and the grass is beginning to turn brown. We have started feeding hay to all our horses and are graining some that need a little extra nutrition that the hay does not provide them.

In the last few weeks we have been getting small amounts of rain, but it's too little, too late. We have recently purchased several hay cradles in the attempt to cut down the waste.

This is a call for assistance, because without your help and the help of supporters like you, these horses would not be here getting the best possible care that they so rightly deserve.

## New Construction at Dreamchaser

We recently have been under construction at Dreamchaser. As mentioned in our summer newsletter, our equipment building is now complete at Dreamchaser Too.

We have just finished constructing three new shelters that were provided through a

wonderful grant opportunity. Two of these were constructed at Dreamchaser Too, while the other was built at the Ranch.

With the winter months approaching we are preparing for the harsh cold. These three new shelters will provide a break from the cold winds

and falling precipitation.

With any luck the winter here in Missouri will be mild this year, but we can never be certain. Our small but mighty staff will work countless hours to insure the safety and wellbeing of the horses here at Dreamchaser.

Turning Tragedy Into Triumph Since 2002!

**Anabadi C (Annie)**

**March 10, 1987 to July 30, 2018**

*Annie lived most of her life in an outside stall, never free to run, never with other horses, just carrying and delivering very expensive foals. When she moved to Dreamchaser, her life dramatically changed for the better. She became close to Cricket and was out in a big turnout with other horses.*

*Dreamchaser moved to Missouri at the end of 2015, and all the horses experienced grass for the first time. We are thankful that Annie had a great life with us.*

## Our Featured Adoption Candidate

Dakota is a two year old gelding that is one of six orphaned foals rescued from ISPMB. This was one of the largest rescue efforts this country had ever seen.

Since coming to us Dakota and the five other foals have flourished. He currently stands at 13.2 hands and has an amazing personality. Dakota is looking to be adopted and would love to bring his best buddy Aspen, who also came from the same group.

### Donations

We have been so fortunate to have such wonderful donors that support what we do here, without them our work would not be possible.

In addition we would like to encourage those with access to email to send us your email address for such things as our newsletters to cut down on the cost of mailings.
