Improvements on the Ranch

This spring we are planning to make some improvements around the place. We are working on getting our exterior fence complete and building some more shelters in some of our pastures. So far the ranch is coming along nicely with the help of all our team members.

We are also planning on finishing the fencing and cross-fencing at Dreamchaser Too. Thanks to the help of our donors this has been a tremendous blessing to our horses.

Grooming

Springtime is a very important time of the year for grooming our horses. They are in the process of shedding their winter coats and getting their nice shiny summer coats. By grooming our horses it gives them attention and affection, which goes a long way for the relationship development we have with the horses. We want the best life possible for these gentle souls and we want to teach them to trust people again.

Fresh Grass in the Fields

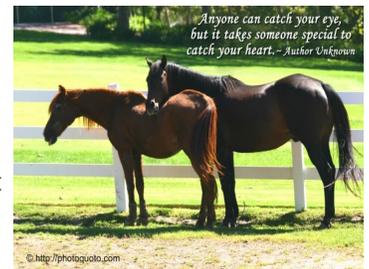

It may only be February, but spring is just around the corner. Soon the first signs of spring will be here. The horses love to eat the new tender grass in the fields after a long winter. Some of our residents here love soaking up the sun and letting it warm their spirits. Those that were rescued from pee barns never got to experience this joy until arriving in Missouri at Dreamchaser.

We welcome the spring with open arms, just like we welcome the horses that have come to us. Please help us continue the good fight for these wonderful creatures.

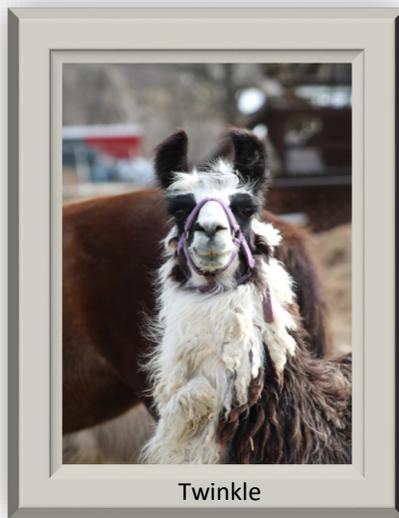

Donate For Care

It takes a lot to care for the animals here at Dreamchaser, and we understand that not everyone is able to adopt one of these beautiful animals. So, that's why we ask for donations, to help provide the care that these horses need.

Here at Dreamchaser we strive to give the best possible life to these animals, without the help of our donors we could not support the 49 horses and burros here.
