Let's Go Green

Hunter's group enjoying the fresh green grass at Dreamchaser TOO!!!

Who ever said the grass is not greener on the other side?

It's moving day!!! We currently have moved part of our horses over to Dreamchaser Too. We have been hard at work mending fences so the horses have more freedom to run and enjoy life.

The horses seem to be enjoying all the lush green grass and sunshine here in Missouri. We are continuously rotating to new pastures so they always have

fresh green grass to eat.

This is the time of year that make us especially thankful to be in Missouri. Although we do miss Arizona we feel that the climate here is better suited for our horses.

Unfortunately, not all of our horses are able to be on green grass because of health reasons, so we do our very best to provide them with plenty of exercise.

Donations Make a Difference

What a difference donations make.

Without the support of our wonderful donors the work that we do here at Dreamchaser would not be possible. It takes roughly \$770 per day to give these magnificent horses the care that they rightfully deserve,

So far this year we have been very busy. We have just started our annual teeth floats, which takes some time considering we have so many animals to care for. We have a Razoo fundraiser to help us amass \$7500 for 50 teeth floats. A big thank you to those who have already donated.

As you know our farrier is scheduled for every eight weeks to provide hoof maintenance to our horses and burros. For our residents this is an important part of their health care as the saying goes "NO HOOF-NO HORSE". We take pride in the care we are able to give to these animals, but none of this could happen without your support.

The staff here at Dreamchaser would also like to proudly announce that we

have now been in operation for sixteen years. We have dedicated ourselves to this cause. So, HAPPY BIRTHDAY!!! We look forward to caring for these horses for many years to come.

**"Life is precious. Especially, sentient life that requires our stewardship. God has made us trustees for the wellbeing of those who are unable to speak for themselves."
-Anonymous Donor**

Bud our farrier working on hoof trims.

Rest in Peace

As some of you know we had to make the decision to lay our sweet Classy to rest. She may not have had the longest life or the best start to life, but while she was here she was well loved.

(Classy 1998-2018)

We have also had to let go of one of our goats, Frankie. It has been a very sad time here at Dreamchaser, but we are trying to make the best of things and move on with our plans. These two will sure be missed around here.

(Frankie 2008-2018)

Improvements at The Ranch

We are hard at work expanding our operations at Dreamchaser Too.

We have recently had a building constructed to house our Peacocks and Ducks. They are adjusting well to the move and love to run and chase grasshoppers all over the yard.

The garage will soon be under construction. With all the farming equipment we require, we need a place to keep it out of the weather. We will also be able to keep all of our farming equipment secure when not in use.

Speaking of farming equipment... We have recently been able to replace our tractor. Although the one we had was fairly new it had developed many issues so it had to be gone for repair more than we were able to use it.

We are happy to say our new tractor is exactly what we need. Life seems so much easier when you have equipment you can actually use.

Turning Tragedy Into Triumph Since 2002!
